

## Keltron MA Series Graphic Display Maps

Provides instant audio and visual event ID

Allows easy graphics modification

Resists tampering and wear

**K**eltron's MA Series graphic display maps provide instant visual identification of zones and exit locations for fire and security applications. MA Series maps are also suitable for general location orientation 'You are here' applications such as schools, hospitals, building complexes or shopping malls and designed to meet the specific requirements of commercial and industrial installations. Available in three standard sizes and custom-designed, these maps are created using a dual panel display that enables easy modification and protection from vandalism and wear.

### MA Series features

- **High-resolution graphics** are created by a computer aided design (CAD) system, enabling highly accurate detail and indicator placement. Keltron maintains all MA Series annunciator graphics on our CAD system, ensuring that our customers can obtain efficient, accurate modifications and/or replication when required.
- **Flexible display area** provided through dual (interior/exterior) panel configuration. All MA Series graphics and indicators are located on the interior panel. The clear exterior panel protects graphics, indicators and system components from vandalism and wear. The interior display is easily accessible for fast, precise graphics updates.
- **Rugged frames** fabricated of heavy-duty aluminum and anodized for long life (red).

### MA Series options

Multicolored graphics  
Multicolored frames  
Custom sizes

### MA Series specifications

(subject to change without notice)

Model	Viewing Area
MA-12	12" x 12"
