

Keltron BB Annunciator Back Boxes

- Fabricated of heavy-duty, 18-gauge steel
- Textured, baked-on, red enamel finish
- Universal mounting pattern

The Keltron BB Series annunciator back boxes provide a clean and secure environment for fire alarm, building automation, access control, security system annunciators and auxiliary devices.

Durable 18-gauge steel finish in red professional grade baked on enamel finish. Universal mounting in the box for surface installation.

Model S and RW boxes are designed with a solid surface area with pre-drilled and tapped hole configuration and include standard 1/2" and 3/4" EMT knockout(s) strategically located on the box. Each model S and RW box is equipped with a green ground screw that meets code and is easily accessible.

BB Series features

- Enclosures are fabricated of heavy-duty, 18-gauge steel
- Textured baked on enamel finish in red
- Green ground screw (NEC) in S and RW models
- 1/2" and 3/4" embedded EMT knockouts in S and RW models
- Universal mounting pattern
